

Lux Europa 2017: Europe of Light in Ljubljana

The Lux Europa International conference "Lighting for Modern Society" was held in Ljubljana, in September 2017.

During the conference Eng. Paolo di Lecce presented the project LIFE-Diadem and the new Italian street lighting standard UNI-11248 introducing adaptive lighting, in reply to the EU standard CEN-13201.

Lux Europa has been contributing to the exchange of projects, concepts and information dedicated to "lighting" world for more than 30 years: from the comparison on lighting themes to the sharing of the most recent results elaborated by the research world.

Lux Europa supports the CIE and disseminates new knowledge and acquisitions, through a conference dedicated to Lighting that is held every four years in a different country. Lighting designers, designers, scholars, producers of the sector are invited to the Conference.

LIFE Networking: Cyprus delegation in Rome

The Cyprus National "LIFE Contact Point" organized, as part of the Capacity Building project "CYCLamEn - Cyprus Capacity Building for LIFE", a study visit in Italy that took place from 12 to 15 December 2017 and covered the three most important Italian LIFE projects, as the issues addressed are of great interest on the island of Cyprus.

Among the objectives: to participate more effectively in the LIFE program, also through exchange activities with countries that, like Italy, are considered among the most virtuous in the context of LIFE.

The Italian LIFE National Contact Point welcomed the Cypriot initiative and the first day of the study visit - which was held in Rome, at the headquarters of the Ministry of the Environment on 12 December 2017.

Eng. Paolo Di Lecce, CEO of Reverberi Enetec, inaugurated the meeting by presenting the LIFE-DIADEME project illustrating its technical, administrative and financial aspects.

LIFE-DIADEME to Covenant Of Mayors in Minsk

On 13 and 14 December 2017, in Minsk, an important convention was organized for the Covenant of Mayors involving six countries of the Eastern Partnership (Armenia, Azerbaijan, Belarus, Georgia, Moldova and Ukraine).

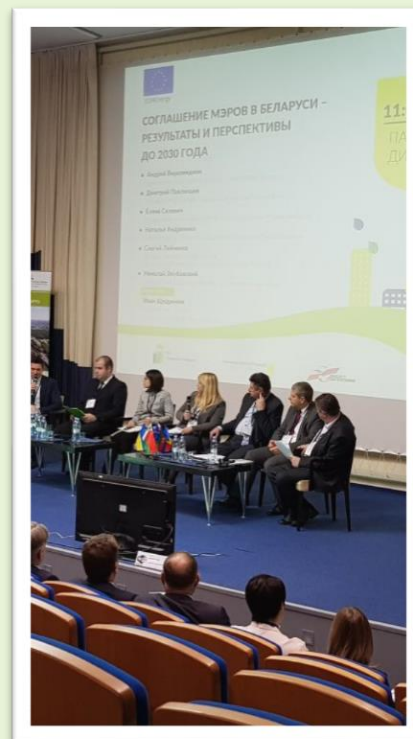

Objective of the meeting: sharing experiences, best practices, ideas and innovations on the topics of energy saving and energy management.

The presence of Reverberi Enetec at this important meeting was requested by EnergyCities: the adaptive lighting system of the LIFE-DIADEME project, in fact, aroused much interest.

Presentations have been displayed by introducing energy "policies", projects and concrete case studies, allowing the exchange of "good practices" with respect to specific sectors. LIFE-DIADEME illustrated the expected objectives of the project, generating enthusiastic consensus.
